

XC506-12

REF.	D mm	d mm	T mm	L mm	GL mm	S mm	EUR/1
XC506-12	25.4	19.4	3	19	78	12	134,54 €

Technical drawing of the XC506-12 tongue and groove cutter. The drawing shows the side view with dimensions: D (outer diameter), d (inner diameter), T (flute thickness), L (flute length), GL (total length), and S (width of the cutting edge). A detail view shows the cutting edge with a width of 6-17 mm. The brand name 'Tilman' is visible on the shank.

XC511-12

REF.	D mm	d mm	T mm	L mm	GL mm	S mm	EUR/1
XC511-12	26	20	3	19	78	12	134,54 €

Technical drawing of the XC511-12 tongue and groove cutter. The drawing shows the side view with dimensions: D (outer diameter), d (inner diameter), T (flute thickness), L (flute length), GL (total length), and S (width of the cutting edge). A detail view shows the cutting edge with a width of 6-17 mm. The brand name 'Tilman' is visible on the shank.

Überschüssiger Kleber kann durch die Lücke, die bewusst durch die Fräser erzeugt wird, entweichen.

Excess adhesive can escape through the gap that the milling cutter deliberately creates.

Un excès d'adhésif peut s'échapper par l'espace que la fraise crée délibérément.
